

Greenstone Gold Mines L.P. is a 50/50 joint venture partnership between Centerra Gold Inc. and Premier Gold Mines Ltd. formed for the purpose of the joint ownership and development of the Greenstone Gold Property including the Hardrock Gold Project located in the Geraldton-Beardmore Greenstone belt in Ontario.

PLANNER

Reporting to the Project Controls Manager, the Planner is responsible for the development and monitoring of the project plan and schedule for the duration of the 4-year project (\$1.2B), with specific focus on the engineering, procurement and construction phases of the project.

PRIMARY RESPONSIBILITIES MAY INCLUDE

- Refine and maintain multi-discipline baseline schedule, ensuring task sequencing, task relationships, and task durations for permitting, engineering, procurement, construction and commissioning activities.
- Assist in facilitating planning sessions with project team and contractor personnel as required.
- Update and maintain the project schedule; identify and record delays and gaps in comparison to the project baseline.
- Monitor and forecast on a regular basis and analyze critical path and the work sequence.
- Develop resource loading profiles to ensure that the project is adequately resourced.
- Trend and reforecast plans based on actual progress, productivity, and resources.
- Track progress and update project schedule, and timely reporting of work progress, earned value and performance.
- Develop detailed subcontractor schedules, as required.
- Interface with construction and subcontractors to discuss causes of schedule delays and propose corrective actions.
- Ensure all project scope changes are captured and reflected in the project schedule.
- Develop reports and provide recommendations, forecasts, analysis and corrective actions in a timely manner.
- Assist the Project Controls Manager with the development and monitoring of project metrics to help assess the health of a project with respect to progress, schedule compliance and efficiency.

SKILLS AND COMPETENCIES

- Ability to read and understand multi-discipline construction drawings, specifications and tender documents
- Knowledgeable and proficient in the use of Primavera software
- Strong computer skills including extensive knowledge of Microsoft Office
- Excellent written and verbal communication skills
- Ability to multi-task and meet deadlines in a fast paced environment
- Ability to drive for results through planning, alignment and execution
- Ability to make optimal decisions through accountability, judgement, problem solving, and market/industry awareness
- Ability to build working relationships through respect & integrity, open communication, teamwork, negotiation and influence

EXPERIENCE, QUALIFICATIONS & EDUCATION

- Engineering degree or Engineering Technician diploma
- A minimum of 7 years' experience in a project planning role in an industrial setting, mining project experience is an asset.

LOCATION

This position will initially be based in Toronto for approximately 1.5 years then will relocate to the project site in Greenstone, ON.
